## START HERE

# How to use this pack

These are real pages from our workbooks. The goal isn't a score today – it's for the format to feel ordinary by test day. Print them, sit down together, and keep it light.

- 1 Keep sessions short.** Ten to fifteen minutes is plenty for a five- to eight-year-old. Two short sittings beat one long one.
- 2 Aim for familiarity, not mastery.** Talk through the questions out loud, together. Recognizing the format is the win.
- 3 Follow their energy.** The moment it stops feeling light, stop. Calm practice is the kind that helps.

---

**Inside this pack:** five real pages each from the NGAT, CogAT, and OLSAT Grade-2 workbooks, plus a one-page guide to what the tests measure. Answer keys live in the full books.

## A QUICK GUIDE

# What these tests measure

Most gifted screeners check the same few kinds of thinking – reasoning with words, with pictures and shapes, and with numbers. They're given to young children, often read aloud, and no reading fluency is assumed.

**NGAT**

Naglieri

General ability across three reasoning types – verbal, nonverbal, and quantitative. Common as a universal Grade-2 screener (it's what FCPS uses).

**CogAT**

Level 8

Nine short subtests grouped into verbal, quantitative, and nonverbal batteries – a fuller picture of how a child reasons across formats.

**OLSAT**

Level C

Verbal and nonverbal reasoning, delivered aloud to young test-takers – following directions, listening reasoning, and figural patterns.

How districts use them: schools use these scores as one input in gifted or advanced-academic screening, usually alongside other measures. Familiarity with the format helps a child show what they actually know – it can't and shouldn't guarantee a placement.

# The full workbooks are coming soon.

This pack is a taste. Each full Reasonwell workbook has two complete practice tests, every question type, and calm, parent-readable explanations – the kind of steady familiarity that makes test day feel ordinary.

*“Honest familiarization builds calm and confidence. No workbook can guarantee a score – and you should be suspicious of any that promises one.”*

- **You're on the list.** We'll email you the moment each Grade-2 workbook launches – NGAT, CogAT, and OLSAT.
- **Keep practicing, free.** Open short reasoning puzzles in the browser at [reasonwellpress.com/practice](https://reasonwellpress.com/practice) – no login.
