

FOR GROWN-UPS

## Sprout's Garden

## ANSWER KEY — KEEP AWAY FROM TINY HANDS

SHEET 13 / 14

## Garden Beds

**1**  $5 + 5 + 5 = 15$

**2**  $2 + 2 + 2 + 2 = 8$

**3**  $6 + 6 = 12$

**4**  $3 + 3 + 3 + 3 + 3 = 15$

**5**  $4 + 4 + 4 + 4 = 16$

**6**  $5 + 5 = 10$

**7** ★  $4 + 4 + 4 + 4 + 4 = 20$

**8**  $3 + 3 + 3 = 9$

**9**  $4 + 4 = 8$

**10**  $2 + 2 + 2 + 2 + 2 = 10$

**11**  $4 + 4 + 4 = 12$

**12**  $3 + 3 = 6$

Tip: rows-first is the convention here (3 rows of  $5 = 5 + 5 + 5$ ), but if your child adds the columns instead ( $3 + 3 + 3 + 3 + 3$ ), that's the same garden and the same total — celebrate it, then ask them to say BOTH ways aloud. Seeing one bed two ways is the seed of multiplication.
